## Education

### Geeta University

Bachelor of Technology in Computer Science Engineering

Sep. 2023 – June 2027

Panipat, Haryana

### Shivaniaa Public School

Higher Secondary Education(Grade:85)

Apr. 2021 – May 2022

Uchana, Haryana

### G.V.M High School

Secondary Education(Grade:98.8)

Apr. 2019 – May 2020

Uchana, Haryana

## Relevant Coursework

- Data Structure
- DBMS
- OOP in C++
- Operating Systems (OS)
- Computer Networks
- Generative AI
- Computer Architecture

## Experience

### Skilligence EdTech

Generative AI Intern

June 2025 – July 2025

Rohini, New Delhi

- Built GenAI projects: text/image generators, speech-to-text, and speech-to-speech tools using NLP and CV models.
- Designed sentiment analysis and multilingual translator using transformer architectures.
- Created an AI-powered interview simulator to enhance candidate preparation.
- Applied Python, APIs, and prompt engineering in an agile environment to deliver real-world EdTech solutions.

### Geeta University

Intern

June 2024 – July 2024

Panipat, Haryana

- Gained hands-on experience in C++ by solving complex problems and implementing optimized algorithms (e.g., Merge Sort, BFS, Dijkstra).
- Engineered features for quiz creation, management, and evaluation, improving user engagement and optimizing backend performance.
- Improved algorithmic thinking through consistent practice on LeetCode, CodeChef, and HackerRank.

## Projects

### ShopVerse-AI-Powered Clothing E-commerce Website | MERN

Sept 2025

- Built a full-stack E-commerce website using the MERN stack (MongoDB, Express.js, React.js, Node.js) with a responsive and user-friendly design.
- Integrated AI-based features for personalized recommendations and added smooth animations to enhance user experience.
- Implemented secure authentication, RESTful APIs, and optimized database management for better scalability, performance, and reliability.

### NewsHub-A Responsive News Aggregator App | React JS, News API, JavaScript, CSS

June 2025

- Delivered a fully responsive, component-driven news application using React JS, integrating a public News API to fetch and display real-time global headlines.
- Integrated advanced features like infinite scrolling, date-based search, and category filtering to enhance content accessibility and user engagement.
- Engineered a dynamic, multi-section navigation system (e.g., Sports, Business, Education) with efficient API request handling to deliver a seamless and intuitive user experience.

### Quiz Management System | HTML, CSS, PHP

Feb 2024

- Developed a web-based quiz platform using HTML, CSS, and PHP, supporting dynamic quiz creation, management, and evaluation.
- Implemented a secure login and registration system with role-based access for administrators and participants.
- Optimized usability for e-learning, and online assessments through efficient backend integration and clean UI design.

## Technical Skills

**Languages:** C, C++, Python, SQL, HTML, CSS, JavaScript

**Technologies/Concept:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)

**Web Development:** Bootstrap, React.js, Node.js, Express.js, MongoDB(MERN Stack)

**Developer Tools:** Git, GitHub, VS Code, Leetcode, GeeksforGeeks

## Certifications
